Dr. Abdul Khalek

Prof. Dr. Shamim Ara
President
Anatomical Society of Bangladesh

It is a great pleasure for me to see the second edition of the telephone directory of the Anatomical Society of Bangladesh. During its journey of the past 30 years, this society has remained as the principal platform for the anatomists of the country. More importantly, it has emerged as a key hub of knowledge and collaboration, contributing significantly to medical education in Bangladesh. This directory will ensure instant reachability of the members of the society through different means of communication, which is so essential in the current fast-paced world. Despite the best effort from the editors, if there remains any unintentional mistake in this directory, we are sorry for the inconvenience and will improve those in the very next edition. Thanks to all the members of the society for their great support to us and wishing all a successful journey.

Dr. A. H. M. Mostafa Kamal
General Secretary
Anatomical Society of Bangladesh

It is a great pleasure to publish a ‘Telephone Directory’ for the anatomists of Bangladesh after six years. I as a general secretary of the Anatomical Society of Bangladesh welcome all to the telephone directory book. This is your one-stop resource to find contact information of your anatomist colleagues for personal, organization and academic purposes. I hope this directory helps connect you with the right people and the service you needed.

We can browse the medical colleges alphabetically to quickly find the information we are looking for. The government medical colleges were highlighted with light blue for easy findings of the desired contact.

Every effort was made to update the information necessary to publish a quality directory. For this reason, again and again, corrections were wanted from the respective anatomists before publishing this directory to make it richer in information and more user-friendly. Thanks for using the ‘Telephone Directory’ of the Anatomical Society of Bangladesh, and I hope it brings convenience and efficiency to everyone’s communication needs.
